remain therein, becomes a State, shall, on thence passing into another State within two years after the imposition of

such duties, be liable to any duty chargeable on the importation of such goods into the Commonwealth, less any duty paid in respect of the goods on their importation. It is hereby declared that the Commonwealth cannot be obliged to refund to the goods dispatched across the border; and traders who may have thought otherwise will do well to accept the caution conveyed. This provision, it may be imagined, was inserted in the Act specifically to guard against the abuse supposed to be threatened. Those who would seek to evade duty may find in the end that the tariff is of such a nature that instead of a gain they would make a loss by over-importation. That is a point which may not be to their credit for consideration. Fortunately, too, since prices are unusually high, the market conditions of the time do not favour the purchase and holding of large stocks of merchandise. Indeed, stocks of most lines of goods are distinctly small, and it is not likely that any will in prices after the imposition of duties, those who hold merchandise imported in anticipation of them would lose something if not all of the advantage they looked for. The carrying of unduly heavy stocks imported in anticipation of duty would be a heavy loss.

and we are told that 20 of his fellow workmen bore him in a stretcher the whole distance, so as to spare him the shock of the journey. The sacrifice of their day's work and wages by these men, and the burden of a grievously injured comrade over thirteen miles of rough country, are good and powerful proofs of sympathy. They are also evidence that these men value their value. The readiness to help any one in distress is universal, and when it is most required, as in places where medical and nursing aid is remote, and the case of

it always is forthcoming. It is a side of human nature which gives delusion much pessimistic commonplace. We had the other day in our Russian letter an account of the tragic end of Prince Gagarin, the first Russian to reach the North Pole. He was killed in a fall from a living ice in an Imperial palace and under care of a host of attendants died alone in a roadside ditch, a peasant woman, his only helper. Having gone to summon assistance, he left the door open and she did for a man in the supreme hour of his agony. And here is this poor man who in his distress can com-

mand a service more affectionate than the choir to the throne of all the Russias. The Russian Emperor has a great family. Kindness is another's trouble, courage in your own. The miners of Gallivault have well exemplified the former, and one can but hope that the man for whose sake they did this fine and noble deed may live to be grateful to them for it.

THE SYDNEY MAIL.—The characteristic of the current number of the *Sydney Mail* is "the war against the Chinese." There are 16 illustrations. There are four pages of these relating to

the Arctonia, which is timed to leave here on Saturday next. The Orient Company has since then been ordered to send the *Arctonia* to the 16th instant at Plymouth, and the *Omaha*, which left here on the 19th of last month, sent at Suva on the 15th instant.

The rest come to the "snag shute" — celebrities and little knots of people amongst the crowds, attending, which nearly every one will be able to recognise some of the "snags" — a page of a popular magazine, a picture of a famous person, a fine portrait. There is a picture of the steamer *Therapsanth*, wrecked at Capetown, with her Australian passengers on board; various illustrations of the fire at the Tivoli Theatre; pictures of the electric tams taken for George-street; and a picture of the famous "Bull Market" at Melbourne. The items include one of the venerable father of the new Premier, now 90 years of age. There is an interesting illustrated article on the wreck of the *Leviathan*.

CARRAGE AND SCHOOL, LIVERY at LOUGA BAY.

The new Government has bestowed some atten-
tion upon the question of selling land at Lon-
ga Bay which formed portion of the Church and
School lands. The village name of Longa
Bay had been surveyed and allotments in it

were made up of 60 acres each. The allot-
ments were sold by public auction, and the pur-
chase money was paid to the Government. The
allotments would have been sold for £1000 or
thereabouts. Every minute lot with the 7000 ac-
res men means the loss of five days' time."

AN ISLAND VOYAGER.—The island steamer Vi-
ctoria, commanded by Captain William Hall, has
just returned from her voyage to the New
Hebrides, the Santa Cruz and Banks Islands,
Norfolk and Lord Howe Islands. She has
brought back a Sydney mail, and also news
from the islands visited by her since the late open-
ing of the season. There were also a good many passengers, among

offered for sale. The Cabinet held under its consideration on Monday a minute relating to the proposed sale of the land. It was decided that it is desirable that the sale of such lands should be stopped.

DUBBO-COONAMARRA RAILWAY.—The Minister for Works, the Hon. E. F. Williams, has written to Mr. Macdonald, M.L.A., to the effect that the Dubbo-Coonamarr railway proposal will be submitted to Parliament for its decision as soon as the Government has received the views of the public. There is no intention on the part of the Government to repudiate the recommendation of the Public Works Commission in respect of the line between Dubbo and Coonamarr.

POSTMASTER-GENERAL.—Mr. C. G. Chick, the Postmaster-General, has already bestowed

them being returned traders on a visit to the United States. He is accompanied by the Rev. Dr. J. T. Bowie, M.D., the Rev. H. W. Gunn, M.D., the Rev. F. O. Brown, the Rev. J. F. Patton, and the Rev. K. A. Rogers.

INSURANCE.—The Insurance Society of Western Australia held its last night's monthly meeting of two Insurance Inspectors of New South Wales was held. Mr. E. W. G. Orylady, president, was in the chair. The minutes of the previous meeting were read by Mr. E. M. Moore, F.I.A., describing the loss under which friendly societies had suffered in the Great Britain, and the regulations of the Friendly Societies in New South Wales, and the bill to consolidate and amend

some consideration upon matters relating to the telephone tunnels, with the result that he has been authorized to have the construction of such tunnels should more properly be undertaken by the Works Department. Accordingly he has had a conference upon the matter with Mr. O'Sullivan, and has asked for the opinion of his colleagues whether he would be willing to take over the work so that it should be done under the direction of officers connected with the Works Department. Mr. O'Sullivan has intimated that he is willing to have the proposed change made. The Cabinet will, in due course, be asked to sanction this arrangement.

FUGITIVE FIRE BOSS RAY.—Mr. O'Sullivan, the new Minister for Works, came to the notice of the public when he was first seen by them some nine months before Parliament was opened. He was then a young man of 30, and he had the reputation of being a valuator of friendly societies in many cases where the valuations of the Insurance Office showed an estimated deficiency in the funds of the societies. He was then a member of the small liability, it must be borne in mind, of the Insurance Office, and he was treated rather badly by friendly societies with their members. The remedy was so easy that the words "insolvency" and "ratification" and occasionally "deficiency" were used in connection with friendly societies, and the Insurance Office was treated with utterly out of respect. A discussion of a world of this kind was not to be had, and the Insurance Office character took place on a paper read by Mr. O'Sullivan at a previous meeting of the Insurance Office. THE DREYFUS VERDICT.

BOYCOTTING THE PARIS EXHIBITION.

LONDON, Sept. 19.

The prospect of millions of foreigners not visiting the Paris Exhibition of 1900, owing to the result of the Court-martial at Rennes, has greatly helped the Dreyfus cause.

PERTH, Tuesday.

At an enthusiastic public meeting in the Town Hall yesterday resolutions were passed expressing sympathy with Captain Dreyfus and family, and also with M. Zola, and expressing abhorrence at the outrage of justice at the Rennes Court-martial.

MEETING OF LADIES.

A meeting of ladies in sympathy with Madame Dreyfus was held in the Town Hall yesterday afternoon. The ground of the meeting was the unfavorable weather and some uncertainty as to the holding of the meeting, the attendance was not so large as desired.

Lady Darley, who presided, said that at the request of the ladies she had called the meeting, not only to express their deep sympathy with Madame Dreyfus, but to express their deep horror at the outrage of justice at the Rennes Court-martial.

Upon Captain Dreyfus at Rennes. They must all be common with the whole world deeply for the suffering of the poor man, who had been unjustly convicted and sentenced to death.

The speakers all spoke in a most eloquent and sympathetic manner, and the meeting was a most successful one.

AN AUSTRALIAN CONTINGENT.

MELBOURNE, Tuesday.

The Minister for Defence stated some weeks ago that the Australian Government intended to furnish men for service in South Africa in the event of hostilities occurring. The British Government in acknowledging the offer stated that the contingent would be sent to the Natal frontier.

Major General Sir Charles Hothel Smith, military commander, speaking in reference to the contingent of men to be sent to the Natal frontier, said: "I consider the proper thing to do is to send an Australian force to the Natal frontier, and to send it to the Natal frontier."
